

MANAGED SECURITY SERVICES

Maintaining a strong security posture is overwhelming for even the largest organizations. All the tasks required to do this can be daunting. You may not have the internal resources required to carry out these tasks, leaving your business, customers and partners exposed to increasingly sophisticated, cyber threats.

**ENSURE AVAILABILITY
& PERFORMANCE OF
CRITICAL BUSINESS
APPLICATIONS**

Micro Strategies' managed security services provides security, reliability and performance by proactively maintaining infrastructure and application patches and monitoring key security patterns and data based on our experience designing and supporting environments like yours. Our team of IT experts delivers the highest levels of service, supplementing your organization's internal IT skills and resources, so you can keep up with the increasingly complex IT needs of your business.

**PATCH
MANAGEMENT**

Regularly scheduled patching of Linux, AIX, Windows, network devices, and third-party applications

**PROACTIVE
MONITORING**

Advance monitoring of behavior patterns, network and log data for potential security events

**THREAT
VALIDATION**

Identification of valid threats from reported events and forensic analysis to provide full scope of exposure

REMEDIATION

Impacted systems are addressed to limit damage and prevent future events

ASSESSMENTS

Proactive determination of security vulnerabilities

BENEFITS

- > Focus – Micro Strategies' staff focuses on managing your critical business applications, , allowing your staff to focus on more strategic objectives and your company to focus on its core business
